

## CHIEF TELLS MEN SHOOT TO KILL

Chicago Authorities Begin  
War of Extermination Up-  
on the Wave of Crime.

Chicago, Sept. 18.—Chief of Police McWeeney, has detailed twenty-six men to make war on hold-up men in the hope of averting the wave of crime which has made its appearance in Chicago each October for many years.

The chief's instructions were: "Shoot to kill if necessary. There never must be such another state of affairs as existed last winter and the time to prevent it is before it starts." Chief McWeeney's action followed the murder yesterday by four masked men of Michael Waschuk, a stableman who sought to prevent the robbery of a delivery station of a department store. The robbers drove to the delivery station in an automobile and left the police no trace.

Mrs. Francis Alfo, wife of Vincenzo Alfo, was shot in the back and probably fatally wounded last night as she and her husband were entering a moving picture theatre. It is thought the shot was intended for her husband who had received threatening letters demanding money.

Samuel Eisenberg and Antonio Cosentano, both grocers, were fired on last night, but neither was hit. Each had received threatening letters. The records of last winter show that as a result of the operations of bands of armed men operating in automobiles, 74 holdups, eight men were wounded, four killed and 45 suspects arrested before the bands were exterminated.

## DEMONSTRATORS AND THEIR WORK

Dr. Robert J. Evans, state leader of the Agricultural college farm demonstrators, on returning from a trip through western and southern Utah recently, was enthusiastic over the interest being aroused among residents of that section in the work of the demonstrators. At Kanarra and Parowan Mr. Evans took down loads of farmers from field to field, testing the farms to determine the conserving power of water that the soil of each field possessed. For this a soil auger was used and borings were made from 5 to 10 feet deep. In this way the effect of various methods of cultivation on the water in the soil at different depths is determined. The onlookers were very interested and impressed by proceedings. Rain prevented similar demonstrations from taking place in two other towns where field days had been arranged for. Meetings were afterward held at the two first mentioned towns, where enthusiastic gatherings of sixty persons in one case and sixty-five in the other were eager listeners to the discussion of better methods of farming.

Organization in Millard. A farmers' organization has been effected in Millard county and it is doing things. One example: It has shipped a car of peaches from Brigham City for home consumption. By this wholesale method of buying it saved 40 per cent of the price paid therefore to fruit vendors. Through the influence of this organization the whole of the town of Hinkley is to be drained. Although this will be effected at a low cost, says Dr. Evans, the price of the land will rise to twice its present value. Another step the association has decided on is to clean and disinfect all alfalfa seed grown by its members and send it out under its guarantee.

Some Refrains in Uintah. Dr. Evans spent a week in the Uintah basin with Walter J. Glenn, the local county agent. Together they held a successful demonstration gathering at Utah. Here they made an investigation of the water-logged lands and advised their owners to dig drains to cut off seepage from canals. Mr. Glenn has waged a campaign to induce growers to replace their scrub stock with pure breeds. As a result a large number of pure bred Hereford and Berkshire sires have been ordered from a Utah firm. The county agents during the immediate past have devoted considerable time to instructing competitors how to prepare farm products for the fair.

## STEAMER DAMAGED BY HITTING WHALE

St. Johns, N. F., Sept. 17.—A collision with a whale caused such serious damage to the Danish steamer Wladimir Reitz, that the vessel was forced to put in here today for repairs.

The accident occurred Monday afternoon about 250 miles east of St. Johns. The crew of the steamer saw the whale approaching at terrific speed, but could not alter the ship's course in time to prevent the impact. The whale struck the steamer head-on, knocking a four foot hole in the bow. The accident is believed to have killed the whale, which sank immediately, its blood discoloring the water over a large area. The steamer left Campbellton, N. B., September 11, for Plymouth, England, with lumber. She will discharge her cargo to permit repairs to be made.

UINTAH TOWN OWNER  
DECLARED BANKRUPT  
H. A. Lee, proprietor and practically the owner of the small town of Leeton, located about five miles south of Whiterock in Uintah county, has completely failed in business and has been served with a process of involuntary bankruptcy by United States Deputy Marshal Julian Riley. Mr. Riley returned yesterday from the Uintah country. He says that the small town, which worked the financial downfall of its promoter, is one of the prettiest spots in the basin. He left last Thursday, going into the basin by way of Moab, Colo. All the merchants and residents of the valley are confident that they will

# Free

FOR A FEW DAYS ONLY

## A Solid Bronze Watch Fob The Great Seal of U. S. A.

FREE to Every Purchaser of  
A 10c Tin of Tuxedo Tobacco

Medallion of solid bronze or silver finish, and carries the Great Seal of the United States in bas-relief. Strap of fine, smooth, black leather with nobby, enameled metal buckle, strong and serviceable. Every well-dressed man will take pride in wearing this Watch Fob. # Tuxedo

The Perfect Tobacco for Pipe and Cigarette

You Can Buy Tuxedo Everywhere

Convenient pouch, lined with moisture-proof paper • 5c  
Famous green tin, with gold lettering, curved to fit pocket • 10c

Tuxedo is the original granulated Burley Tobacco, and has been more widely imitated than any other high-grade tobacco in the world. Thousands of America's most famous men have found that smoking Tuxedo affords them complete relaxation, soothing comfort, and healthful enjoyment. And every man who tries Tuxedo will find the same desirable qualities in this pure, mild, delightful tobacco.

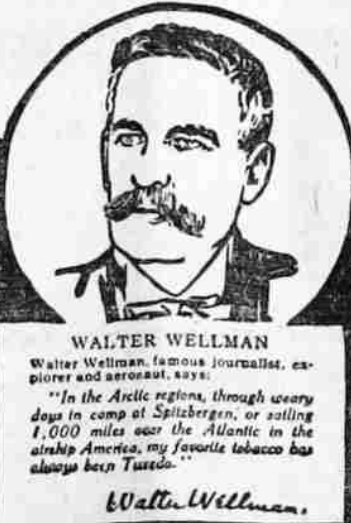

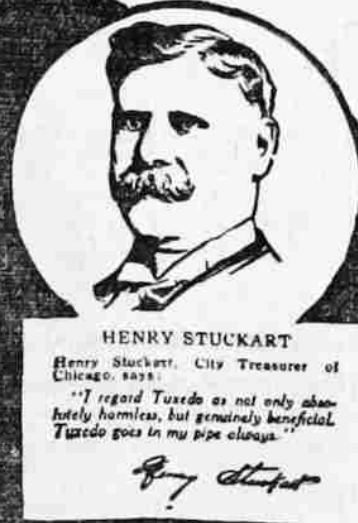

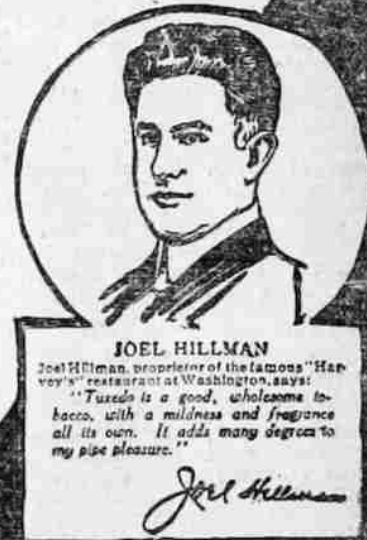

You can smoke Tuxedo, no matter how many other pipe-tobaccos you have tried and had to give up—for Tuxedo does not irritate the most sensitive mouth, throat or nose—in fact, many public speakers and singers find that smoking Tuxedo has a soothing, helpful influence on their throats.

Tuxedo is made from the very best selected Burley tobacco grown in Kentucky—care-

fully ripened, cured and aged until it is perfectly mild and mellow. Then treated by the famous "Tuxedo Process" that removes the last trace of "bite" and bitterness, and develops the wonderful fragrance and flavor of the Burley leaf. Tuxedo has many imitators in the tin—but as long as the secrets of the "Tuxedo Process" remain undiscovered it will have no equal in the pipe or cigarette.

# FREE

This Free Watch Fob offer is made to induce more men to try Tuxedo. Because every man who gives Tuxedo a week's trial will find at the end of that time, he has had the most enjoyable and beneficial smoke week of his life! Why not get that Free Watch Fob today!

## NEW MEMBER OF A. C. FACULTY

Miss Elizabeth E. McKay of Ogden, has been given the position of professor of foods and cookery at the Utah Agricultural college. Miss McKay began her training in domestic science at the Logan institution in 1906, from which she

graduated from the home economics division in 1909. She then became instructor in her line at the college for the school year of 1909-1910. The following season she went to Ogden, where she was employed in the Weber academy as head of the domestic science division for two years. Upon resigning that position, she went east for further study at Columbia university, New York. From her past record it is certain that Miss McKay will prove a very valuable acquisition to the Agricultural college. While a student at the college she

was popular with her associates and was a strong student, also. At her graduation she was selected to prepare and give the class paper.

BOY RUN DOWN BY  
ELECTRIC RUNABOUT  
Salt Lake, Sept. 18.—"Back up, I am under here," said John Smith, 12 years of age, of 100 Almond street, as he reached up his hand in protest from where he lay under the front wheels of an electric runabout that knocked him from his bicycle at the intersection of First

South and Main streets last evening. The car was that of Mrs. E. Hegney of 22 Fourth East street. She had relaxed her hold on the steering lever to save a little child sitting beside her from a tumble to the bottom of the runabout. A woman companion, however, caught up the babe and Mrs. Hegney gave heed to the wig-wagging of the boy's hand and his plea for her to "back up." The boy's wheel was badly damaged, but aside from a bruise or two, he escaped without injury.

ATTACKS RATES FOR POWER  
Boise, Idaho, Sept. 17.—The city of Coeur d'Alene has filed a complaint before the public utilities commission of this state against the alleged excessive and unreasonable rates charged for electric power by the Kootenai Power company, and asking that the commission make an investigation and upon its findings order the rates to be reduced. The complaint is made on behalf of the city by Mayor R. S. Nelson and the members of the city council.
